## **Continuation Sheet (PTOL-303)**

•

Continuation of 3. NOTE: Amended claims 1, 12, 13, 17, 24, 27 and 28 require further consideration and/or search with regards to the limitation "automatically acquiring dependencies". In response to Applicants argument that the new features are recited in all independent claims, however, all independent claims do not recite the amended limitations. For example, claims 27 and 28 does not recite the limitation "after acquiring the software associated with the software dependency, updating a database at the computer indicating the software associated with the software dependency comprises recursively processing the one or more other software dependencies" as recited in such a manner in the independent claim 1. Further, Applicants description on pg. 4, lines 11-16 (as indicated by the Applicants) does not support for the limitation automatically acquiring dependencies.
